LX-1352 Stainless Steel Pail Pump

Lightweight & Portable design

Fort Mill, SC - The LX-1352 is made from stainless steel (SS304), polypropylene, Teflon and Viton. It's ideal for transferring a variety of liquids including most acids, solvents, aggressive and corrosive chemicals. The Teflon piston and Teflon extension tube are resistant to most fluids. Even viscous liquids can be transferred efficiently because of its simple rugged design. The LX-1352 includes an adaptor to accommodate 2" bungs. The flow rate is 8 fluid ounces per stroke. The lightweight and portable design offers long lasting use.

About Lumax
