LX-1807 Jaws Type Oil Filter Wrench

Self-Adjusting, Spring Loaded

Fort Mill, SC - The LX-1807 is a jaws type offset oil filter wrench that fits filters from 2-1/4 in. to 4 in. (57mm -102mm). It's a self-adjusting, spring loaded filter wrench that allows for a wider range of filter applications. The LX-1807 is made from high quality, steel construction with a comfortable cushion grip when clamping down on the filter. It has multiple serrated jaws for enhanced grip on the filter. The open-ended band allows for easy access on multiple filter applications.
