### **New Swivel Handle Oil Filter Wrenches**

*LX-1805, LX-1809, LX-1820, LX-1822, LX-1824, LX-1826, LX-1828*

**Fort Mill, SC** - Lumax's new swivel handle oil filter wrenches are constructed from high-quality components, making them built for lasting use and durability. The filter wrenches are ergonomically designed for the user's comfort, featuring cushion grip handles and slim, adjustable designs. The unique yoke and link assembly allows a strong grip, but prevents crushed filters.

The LX-1805 is a heavy-duty, swivel handle oil filter wrench with four interchangeable, 1 in. (25mm) wide steel bands. The bands are easily interchanged with the use of two detent pins. The filter wrench allows the user to install and remove filters ranging from 2-3/8 in. to 4-3/8 in. (60mm to 110mm).

The LX-1809 is an adjustable filter wrench that allows for a wider range of filter applications. The extra-long chain allows for easy diameter adjustment. Fits filters from 2-1/2 in. to 4-1/2 in. (63mm to 114mm).

The LX-1820 is a heavy duty, swivel handle oil filter wrench. Made for compact filters, fits filters from 2-1/2 in. to 3-1/4 in. (63mm to 83mm).

The LX-1822 is a heavy duty, swivel handle oil filter wrench. Made for standard filters, fits filters from 3-1/4 in. to 3-7/8 in. (83mm to 98mm).

The LX-1824 is a heavy duty, swivel handle oil filter wrench. Fits filters from 3-7/8 in. to 4-3/8 in. (98mm to 111mm).

The LX-1826 is a heavy duty, swivel handle oil filter wrench. Fits filters from 4-5/16 in. to 4-3/4 in. (110mm to 120mm).

The LX-1828 is a heavy duty, swivel handle oil filter wrench. Fits filters from 5-1/4 in. to 5-3/4 in. (133mm to 146mm).
